RE: CALPUFF

Dear Mr. Fox:

This is to advise you that TRC Environmental Corporation is assigning all its rights in the CALPUFF Modeling System, as well as the associated website [src.com](http://src.com), to Exponent, Inc. Attendant with Exponent's ownership of the CALPUFF Modeling System they will be assuming all obligations associated therewith including those associated with the maintenance, custody and distribution of CALPUFF as described on the [www.src.com](http://www.src.com) website.

Exponent has agreed to make the transition seamless and you should expect to hear from Joe Scire at Exponent shortly. Please contact me with any questions.

Very truly yours,

Martin H. Dodd  
Sr. Vice President, Secretary, General Counsel
