

11th Conference on Air Quality Modeling

- Thursday Oral Comments Session Logistics
 - Remember, the Conference is a Public Hearing.
 - Everyone speaking today must identify themselves and their affiliation.
 - All oral comments are being transcribed and will also be submitted to the proposed rulemaking Docket (ID No. [EPA-HQ-OAR-2015-0310](#)).
 - There will not be any Q&A during or following any oral comment.
 - Comments can be submitted to the Docket through October 27, 2015.
 - There is ample time across the balance of Thursday for the oral comments to be given to the record.
 - However, no speaker will be allowed more than 15 minutes of time, which is the same time restriction and the public presentations.
 - At such point that all audience members wishing to provide oral comments have done so, we will break for lunch.
 - After lunch, we will reopen the public hearing for any additional oral comments. At such point that there are no more commenters, we will end the Conference and Public Hearing.
