

If you are using:	Browsers known to work: ¹	Java versions known to work:
"new" AQS	IE7 up to IE11 IE8 Firefox (up to 12.0) Chrome Safari	All (after Version 6 update 20)
"new" Discoverer ² Note: not all queries saved in the 10G environment are working.	IE7 IE8 Firefox Chrome Safari	All (after Version 6 update 20)
"old" AQS ³	IE7 IE8	Version 6 update 20 to Version 6 update 32
"old" Discoverer ³	IE7 IE8	Version 6 update 20 to Version 6 update 32

¹Other browsers may work, but are unsupported or untested.

²We are working with the National Computer Center to get Discoverer working on the new Oracle 11g environment asap. As of today, if you are a Discoverer user, you will have to use the "old" Discoverer environment; do NOT upgrade to Java version 7.

³Sunset date for the old Oracle 10g environment is in June 2012.
