

2014 Alternate 1-in-3-Day Sampling Schedule

The 1-in-3-day schedule is a pdf file that was sent with this document. The Alternate shipping schedule was implemented to address Friday-Monday sampling dates, where a monitoring agency cannot authorize weekend or holiday time to retrieve exposed filters. For those sites running on the Alternate 1-in-3-Day Sampling Schedule, on sample dates designated as an alternate date, no package of filters will be sent from the laboratory for sampling.

The Alternate Schedule for calendar year 2014 is listed below.

- Monday, January 20 is an alternate date.
- Friday, February 7 is an alternate date.
- Monday, March 3 is an alternate date.
- Friday, March 21 is an alternate date.
- Monday, April 14 is an alternate date.
- Easter: There is no scheduled alternate date. If filters cannot be swapped on Friday, April 18, it is suggested that filters for the Sunday, April 20th run be returned unsampled.
- Friday, May 2 is an alternate date.
- Monday, May 26 is an alternate date.
- Friday, June 13 is an alternate date.
- Monday, July 7 is an alternate date.
- Friday, July 25 is an alternate date.
- Monday, August 18 is an alternate date.
- Labor Day: There is no scheduled alternate date. If filters cannot be swapped on Monday, September 1, it is suggested that the Tuesday, September 2nd be returned unsampled.
- Monday, September 8 is an alternate date.
- Friday, September 26 is an alternate date.
- Saturday, October 11 is an alternate date.
- Friday, October 17 is an alternate date.
- Monday, November 10 is an alternate date.
- Friday, November 28 is an alternate date.
- Monday, December 22 is an alternate date.
- Christmas. There is no alternate date. If filters cannot be swapped on Friday, December 26, it is suggested that the filters for the Sunday, December 28th run be returned unsampled.
