

## 2013 Alternate 1-in-3-Day Sampling Schedule

The 1-in-3-day schedule is a pdf file that was sent with this document. The Alternate shipping schedule was implemented to address Friday-Monday sampling dates, where a monitoring agency cannot authorize weekend or holiday time to retrieve exposed filters. For those sites running on the Alternate 1-in-3-Day Sampling Schedule, on sample dates designated as an alternate date, no package of filters will be sent from the laboratory for sampling.

The Alternate Schedule for calendar year 2013 is listed below.

- Monday, January 7<sup>th</sup> is an alternate date.
- Monday, January 21<sup>st</sup> is MLK holiday. If you can not set up the Tuesday run, it is suggested that you ship the Tuesday, January 22 sample back to RTI unsampled.
