

Thank You!!

2009 National Ambient Air Monitoring Conference, Nashville, TN

New Monitoring Technologies Session

- Tekran Speciated Ambient Mercury Analyzer at Two Urban Locations in New York State
 - **Dirk Felton: NYSDEC**
- Operating Experience with the Cooper Environmental Systems Xact 620
 - **Will Wetherell: MODNR**
- Novel Monitoring Technologies used in the SEARCH Network
 - **Stephanie Shaw: EPRI**
- Monitoring True NO₂ Experience at Great Smoky Mountains with an LED Photolytic Converter
 - **John Ray: NPS**
- A Draining Experience: Working with the TSI 3781 Water-based CPC
 - **Philip Fine: South Coast AQMD**
- Ambient Ammonia Monitoring Initiative
 - **Nealson Watkins: EPA, OAQPS**

New Monitoring Technologies Session

- Nanoparticle/Ultrafine Monitoring State of the Science
 - **Dennis Mikel: EPA, OAQPS**
- Field monitoring of ozone precursor type and air toxic compounds with a small, fast GC analyzer: the microFAST GC
 - **Edward Overton: LSU**
- Characterization of Coarse PM Using Passive Samplers
 - **Tim Watkins: EPA, ORD**
- Optical Measurements of CSN and FRM Teflon Filters to Estimate Elemental Carbon
 - **Neil Frank: EPA, OAQPS**
- Semi-continuous Benzene Monitoring in Burlington, Vermont
 - **Robert C. Lacaillade: Vermont DEC**
- Application of Extractive Cryogenic Preconcentration with FTIR Spectroscopy for Autonomous Measurements of Gaseous Air Toxics
 - **Patrick I. Buckley: University of Alabama**
