

## PM2.5 CHEMICAL SPECIATION OF FILTER SAMPLES DRAFT SHIPPING, RECEIVING, AND SAMPLING SCHEDULE FOR THE CSN WITH ONE-DAY-IN-THREE AND SAMPLING THROUGH THE MONTH OF July 2012

**Please Note:**

- Sampling days are shaded on the schedule and have a number in the Sampling row .
- Shipping dates are labeled in the first and fourth row for the date.
- Each number in the schedule represents a set of modules to be used for a scheduled sampling event. The set number will be used to track the activity of that set of modules through the schedule. For example, each sampler's module set 1 will be shipped from RTI on February 13, received by the Site on February 14, used for sampling on February 18, shipped back to RTI by the site on February 22, and received back at RTI on February 23.
- A module set not shipped back to RTI on its specific scheduled date may not be ready for its next scheduled sampling day.
- Trip Blank filters will now be collected on the URG3000 samplers only. MetOne modules will no longer be shipped for Trip Blank events.

**Legend:** FB = Field Blank, TB = Trip Blank (Example: 1,2FB: module set 1 includes all modules for the collection of the Sample and module set 2 includes all modules for the Field Blank for that sampling event.. Since both the Met One and URG 3000N samplers have the same Field frequencies, a single module set number is used for all events.)
